

One of Intra's Adventurer was there

The Offshore Yachting Club of Rhodes has organized the 16th year an international sailing week titled; "**RODOS CUP 2012**" in the paradisiac Dodecanese islands. The aim of the event is to promote Offshore Sailing by uniting as many sailors as possible, giving them the opportunity to enjoy the wind, sea and sun.

One of the sailors in 16th Rodos Cup was our proud, Intra Tours' MICE coordinator, Ms. Pinar

Gundogdu expressed herself in these words ;

*We started to sail from Kos Island to Rhodes, we sailed in very hot wheather and fairly good wind and I am so pleased to have such a wonderful racing experience passing through the natural beauties of Dodecanese Islands, also honored that my team, **Allegro** has won 3rd place in the race.*

Want to sail among islands?

Intra's yacht and cabin charter will find your dream boat, crew and the course.

The International Bodrum Ballet Festival will be held for 10th time

The International Bodrum Ballet Festival which will be held for the 10th time in this year organizing between 8 to 24 August at historical Bodrum Castle where melt in the same pot the history, culture and nature in Bodrum.

HISTORY OF BODRUM CASTLE Being a symbol for Bodrum, the castle is utilized as Museum of Underwater Archaeology at present (Castle of Saint Peter).

Bodrum Castle was constructed on a rocky area set in between two harbours. This area was an island at first in the ancient age and later joined to the city and became a peninsula.

The castle of Knights of St. John, constructed in between the dates of 1406 – 1523, has a square-like plan and its dimensions are 180x185m. There are towers called with various countries' names within the inner part of fortress. The tallest one is French Tower with a height of 47.50m from sea level. Other towers are Italian Tower, German Tower, Snake Tower and English Tower.

Apart from the east wall, other sections of the castle were reinforced with double main outer walls. The

inner castle is reached through 7 gates. There are arms placed above the gates, decorated with crucifixes, flat or horizontal straps, dragon and lion figures. There are 14 cisterns within the inner castle, including the one excavated under the chapel. Castle blockhouse, through in between double walls, suspended bridge, control tower and the sultan's signature of Mahmud II are among outstanding Bodrum castle gained the Ottom an characteristic with a public bath within the period the castle had been used as a prison at the end of 19th century.

The castle is being used as Museum of Underwater Archaeology at present days. Items being in the collections of Museum are exhibited in the Turkish Bath, Amphora exhibit, East Roman Ship, Glass Hall, Sunken Glass, Coin and Jeweller Hall, Hall of Carian Princess, English Tower, Torture and Carnage Rooms and German Tower. Also, performances are held in open spaces within the castle constructed on an area of 33.5 acres. The Museum was awarded with "Special Glory" reward in the competition of Museum of the Year organized in Europe in 1995.
